

Take a Walk on the Bright Side with Panduit

Panduit offers a fully unified line of white product solutions that will have you seeing the difference when you take a walk on the bright side within your physical network infrastructure! From the telecommunications room to a large-scale data center, the products offered in white will ensure that visibility is an all-time high and aesthetically well-maintained within your facility.

White products offer major benefits that can transform your space and even boost cost savings. Prepare to be illuminated!

- Increases visibility within your cable management equipment, resulting in better working conditions for technicians
- Enhances the space for a contemporary, upgraded feel
- Delivers a consistent, unified aesthetic to the overall infrastructure
- Capable of reducing lighting electrical costs and fixtures needed to light the facility up to 35%, depending on your configuration
